

Insert new claim 32, as follows:

32. (NEW) Apparatus for determining the presence of a fluid conduit comprising:

a light source for generating radiated light in a direction towards a predetermined location, whereby when said fluid conduit is present at said predetermined location said radiated light passes in a direction through said fluid conduit;

a first optical sensor for detecting said radiated light passing through said fluid conduit; and

a second optical sensor for detecting said radiated light, which is reflected by said fluid conduit.
